

Welcome TO ENFIELD'S

THOMPSONVILLE COMMUNITY GARDEN

Garden Education Sessions:

Best Organic Practices

What is Soil Fertility and How Do we Preserve It?

Good Bug/Bad Bug

Composting and Why We Should Do It

Identifying Weeds, Pest and Disease

Taking Care of the Perennial Beds

Extending the Harvest (Winter Gardening)

Walk Through the Gardens with Trish

Special Care of Tomatoes and Squash

What to Expect on Planting Day:

Tour of the garden beds, perennials and herb beds, shed, compost bins and watering hoses

Proper planting and watering techniques

How to have a successful garden experience and enrich your life with plants

The ideal garden layout – save time, money and enjoy the harvest

Companion planting – using flowers and herbs to help your plants

What to plant now and what to plant later

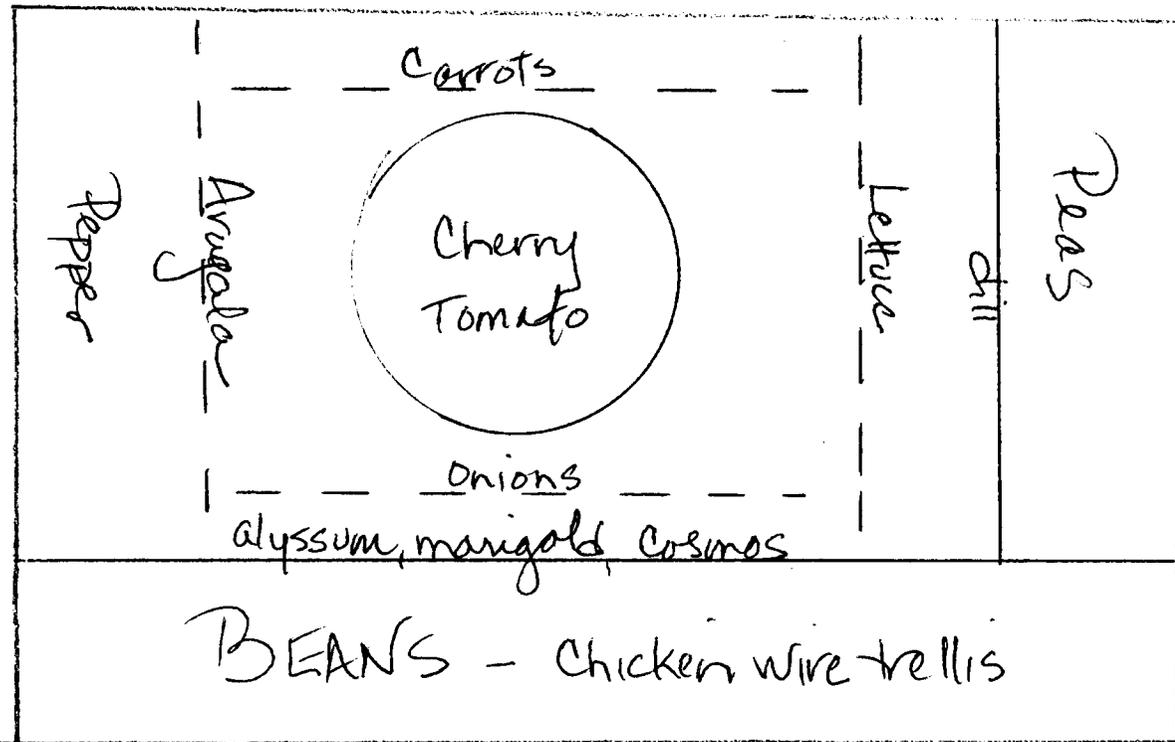

Benefits of planting in raised garden beds – what you can/can't plant here

What should I grow – What do you like to eat??

Care of the perennial beds and how you can help

Wear comfortable clothing and shoes and expect to get dirty!

Trish Safner, UConn Advanced Master Gardener

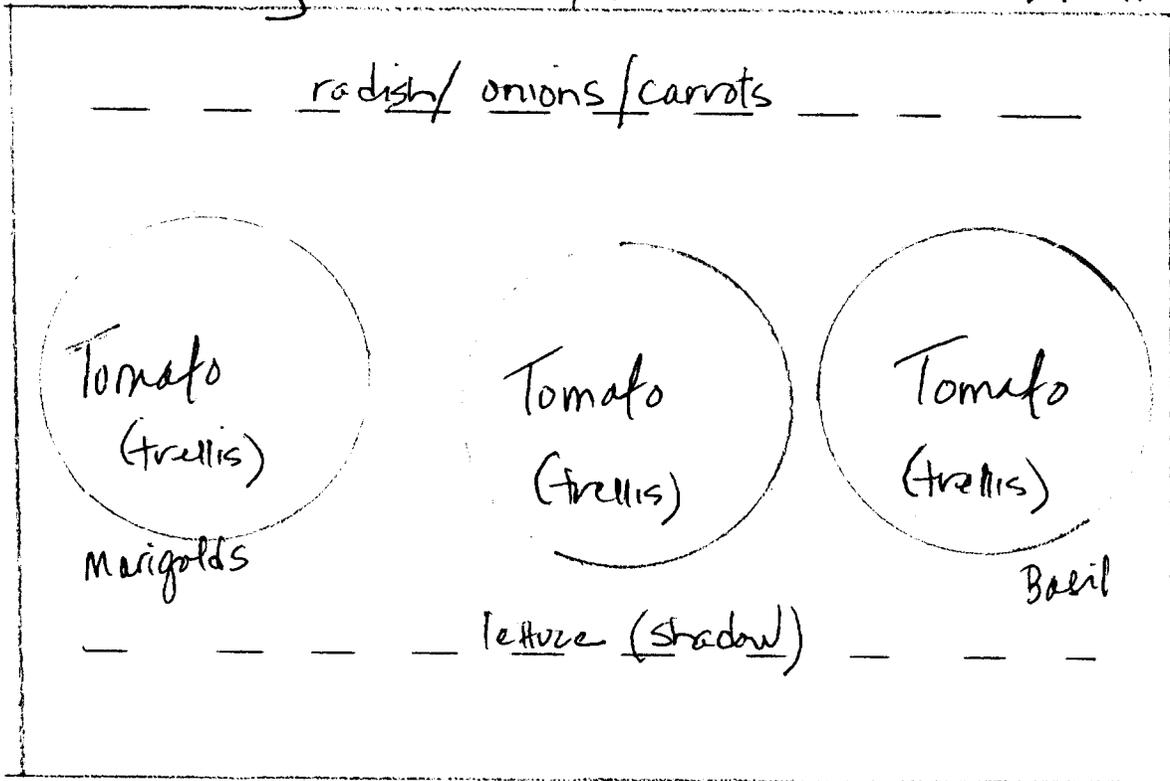

3

	Broccoli	Pepper	Basil	Marigolds	
	Lettuce	Eggplant	Carrots	Beets	
	Chard	Peas	Spinach	Kale
