

The goal of the Enfield Community & Farmers Market is to provide a variety of handcrafted and locally grown, harvested, and produced products that are made in the state of Connecticut. We want to connect area residents to enjoy local crafts, foodie specialties and produce to foster community while creating healthier eating habits to enhance the quality of life in Enfield and throughout area communities who visit us. This social gathering includes local bands thanks to Falcetti Music and area community organizations to foster a social gathering and interaction and to preserve Enfield's unique artisans, bakers, and agricultural heritage by supporting local crafters and farmers. Come each week to find different vendors!
