

IW#629-52 South Road- Wetlands Inspection Pictures of the Driveway (Referred as "Road" by the Applicant)

Drive is 9.5' away from Road

Unsure where the property line is, does not seem like 2' away if the fence is the property line.

In Version 7 of the narrative, the applicant now mentions the storage garage will also be used for a work truck and work van.

Pictures of measurements from the property line to the drive way should be requested as to verify the measurements given on the Site Plans.
