

Summary:

Allow a one-story storage garage to be located 10-feet from property fence in back yard. The storage garage is 11-feet high with a peak of 14 feet. Allow a geo grid gravel road 10.5-feet wide (as a continuation to current gravel road) that is within 100-feet of wetland area. The road will have access from driveway and not the road. The storage garage will be used to store a boat, work truck, work van and jet ski so they will no longer be viewed from the main road. The road will be used as access to the garage. Will be submitting a separate building permit for storage garage.
