

# NARRATIVE

Summary Description:

Short Summary Description:

Retention Pond work (dredging, pumping, etc) northeast side.

As per <sup>IN</sup> ~~law~~ #474 previously submitted. Proposed maintenance of existing retention basin involving dredging of a water course to function as designed with sediment controls. Doing this work ensures the functioning of the pond andd prevents water from backing up onto the property. Trees/bushes will be removed as necessary, as well as overgrowth around pond edge.
