

TOWN OF ENFIELD

IMPORTANT NOTICE

ENFIELD ROADS 2021

TO: Residents / Landowners
FROM: Town of Enfield, Department of Public Works, Engineering Office
SUBJECT: Stephen Drive, Cheryl Drive, Edmund Lane – Project Update
DATE: May 25, 2023

As you are aware, Hinckley Construction Inc. has started reconstruction work on the above-mentioned roadways. You may also be aware that during the beginning of the road work there was a water main break on Cheryl Drive.

In November of 2021, all public utilities, including Connecticut Water, were notified of the approved roads, slated for reconstruction. At that time the utilities were asked to consider updating their infrastructure on or below the approved roads. Connecticut Water determined that their infrastructure was adequate and elected not to make repairs or replacements.

Due to the recent watermain break on Cheryl Drive, Connecticut Water has reevaluated the condition of their system and plan on replacing the watermains before the Town's contractor paves the roads. Connecticut Water has notified us that the utility work will take approximately 8 to 10 weeks to complete. After Connecticut Water's work has been completed, the Town's Contractor will return to finish paving the roads.

The Town of Enfield appreciates your patience and cooperation as we seek to improve the Town's roadways and infrastructure for all residents.

If you have any questions or concerns regarding this project, please call J.P. Rodriguez, Road Engineer, at 860-763-7095 or via email at jrodriguez@enfield.org
